

Geographic Management of Cancer Health
Disparities Program (GMaP) *Region 2*
May 2019 E-Blast

You are receiving this email as a Cancer Researcher in GMaP Region 2

GMaP is an integrated network of 7 hubs across the United States. Moffitt Cancer Center in Tampa, FL serves as the hub for GMaP Region 2 (previously Region 3), which currently includes more than 40 partner institutions in Alabama, Arkansas, Florida, Georgia, Louisiana, Missouri, Mississippi and Puerto Rico.

ATTENTION:

GMaP Region 2 Awards are *currently unavailable* at this time. GMaP Awards include: Travel Awards, Pre-Submission Expert Grant Review, Pilot Project, and Targeted Training.

Connect with GMaP Region 2 on Social Media!

Upcoming Events

Advances in Exercise Oncology: A Public Event brought to you by Moffitt Cancer Center and the ACSM Cancer Interest Group

With support from:

Sat., June 1, Orange County Convention Center, West Building (CC)

Cancer survivors, caregivers, and community members are invited to join the American College of Sports Medicine and its members in a cancer-themed day at this year's Annual Meeting. This event aims to deliver the latest science in the field of Exercise Oncology, geared towards professionals and community members alike. The session will feature two President's lectures specific to exercise and cancer, a screening and discussion of "Phil's Camino", an inspirational story of a cancer survivor's journey, and a unique opportunity for cancer survivors and community members to engage with world-renowned scientists studying exercise oncology.

Noon-12:30 p.m., Room: CC-205 Foyer - Networking and light refreshments

12:30-1:00 p.m., Room: CC-205 - Viewing of the film "Phil's Camino" - A story of resiliency and hope. A Stage IV cancer patient learns to heal himself by walking and credits walking with changing his life. An inspirational story for anyone who ever dreamed of doing something that seemed impossible.

1:00-1:45 p.m. - Discussion

To RSVP please call (813)745-5330 or email Zulema.Uscanga@moffitt.org with your name, address, phone number, and the number of people attending by Thursday, May 30th.

Saturday Cancer Sessions

- G-06 - Tutorial Lecture: **New Developments in Cancer Prevention and Control: The Importance of Moving More and Sitting Less**
8:00-8:50 a.m., Room: CC-205
- G-10 - Clinical Workshop: Hands On Demonstration - **Skin Cancer and Infections in the Athlete**
8:00-8:50 a.m., Room: CC-304E
- G-20 - Thematic Posters: **Exercise and Physical Activity in Cancer Survivors**
9:00-11:00 a.m., Room: CC-102B
- G-24 - Tutorial Lecture: **Exercise Oncology: Evidence-based Practice and Practice-based Evidence**
9:00-9:50 a.m., Room: CC-205
- G-31 - Tutorial Lecture: **Weight Bench to Bedside: The Importance of Muscle Mass in Cancer Outcomes & Side Effects**
10:10-11:00 a.m., Room: CC-205
- G-42 - Free/Communication Posters: **Cancer**
7:30-11:00 a.m., Room: CC-1 Hall WA2
- G-44 - President's Lecture: **Molecular and Metabolic Mechanisms Underlying the Exercise-Cancer Link**
11:15 a.m.-12:05 p.m., Room: CC-205
- G-45 - President's Lecture: **Prehabilitation for Abdominal and Thoracic Surgery: Ready for Prime Time?**
11:15 a.m.-12:05 p.m., Room: CC-204

Health Equity Summer Intensive on Concept Mapping

June 10 - 11

University of North Carolina
at Chapel Hill

Hosted by: UNC Center for Health Equity Research
Organized by: UNC Center for Health Equity Research, UNC Department of Health Behavior, UNC Department of Health Equity Research

UNC Health Equity Summer Intensive

The Health Equity Summer Intensive aligns with the UNC Center for Health Equity Research's mission by creating space for community leaders, health care professionals, and academics to learn new tools for health equity research.

The Center is hosting its first Health Equity Summer Intensive, a two-day training on innovative

methods and approaches to conducting health equity research. This year, the training will include interactive training on concept mapping as a stakeholder-engaged, participatory method to conduct health equity research. Participants will learn how to conduct concept mapping activities from both a facilitator and participant perspective, using online and in-person approaches. **Registration deadline is June 3rd.** Please visit the [website](#) for more information.

International Cancer Education Conference

Revolutionizing Cancer Education Globally
Through Technology Across Generations

18-20 September 2019 • Salt Lake City, Utah, USA

. Mark your calendar for the **2019 International Cancer Education Conference**
September 18-20, 2019

Salt Lake City, Utah

For more information, visit the website [here](#).

The "Addressing Urban Health Disparities Through Participatory Health Research" conference

is an international forum for professionals and community activists from diverse backgrounds, including academicians, students, practitioners, community stakeholders, policy advocates, and others interested in addressing urban health disparities through participatory methods. Bringing together community-based participatory research (CBPR) scientists and community members from the U.S. and around the world, the conference will provide an opportunity for participants to

engage in the International Collaboration for Participatory Health Research (ICPHR) global network. The conference will be held **June 21-22, 2019** in Baltimore. To learn more about the conference, please visit the [website](#).

14TH ANNUAL TEXAS CONFERENCE ON HEALTH DISPARITIES

June 6th-7th, 2019

"SOCIAL EPIGENOMICS & HEALTH DISPARITIES"

Evidence based approaches that identify mechanisms by which social experiences at various stages in life, both positive and negative, affect gene function and thereby influence health in racial/ethnic minority and health disparity population.

Institute \(NHLBI\)](#)-NHLBI, National Institutes of Health

[Multiple Tenure Track positions, National Human Genome Research
Institute \(NHGRI\)](#) -NHGRI, National Institutes of Health

FUNDING OPPORTUNITIES

NCI Mechanisms of Disparities in Etiology and Outcomes of Lung Cancer in the US: The Role of Risk and Protective Factors (NEW) (R01 Clinical Trial Not Allowed) | Applications are due March 4, 2020; March 4, 2021 | [PAR-19-018](#)

NCI Mechanisms of Disparities in Etiology and Outcomes of Lung Cancer in the US: The Role of Risk and Protective Factors (NEW) (R21 Clinical Trial Not Allowed) | Applications are due March 4, 2020; March 4, 2021 | [PAR-19-019](#)

NCI CRCHD Administrative Supplements to Support Cancer Disparity Collaborative Research | Applications are due Sept. 10, 2019; Sept. 10, 2020 | [PA-18-842](#)

Looking for additional [funding opportunities](#)? A full list of CRCHD funding opportunities as well as select NIH opportunities is available online.

Diversity Training Funding Opportunity

Are you a **postdoctoral** or **early stage** investigator looking for funding opportunities?

The NCI Mentored Research Scientist Development Award to Promote Diversity (K01) provides cancer research career development and mentored training experience to individuals from underrepresented groups who have at least 2 years of postdoctoral experiences in the biomedical, behavioral, and

clinical research fields.

The K01 provides:

- 3 – 5 years of salary support
- Career guidance from experienced mentors
- Protected research time (up to 75%)
- A pathway to an independent cancer research career

The NCI Center to Reduce Cancer Health Disparities (CRCHD) sponsors the K01 award as part of the [Continuing Umbrella of Research Experiences](#) (CURE) program.

You're encouraged to contact the Program Director, [Abigail Soyombo, Ph.D., M.B.A.](#), as you are developing your application. CRCHD's Training Navigator, [Hana M. Odeh, Ph.D.](#), is also available to assist you in learning more about the K01 and other funding mechanisms available through CRCHD.

DID YOU KNOW?????

Click to learn more about the [Career Award \(K\) Policy Update](#): Concurrent Support from a Mentored K Award and a Research Grant

Diversity Training Funding Opportunity

Are you a **principal investigator** looking for supplemental funding?

The NCI Research Supplements to Promote Diversity in Health-Related Research (Diversity Supplements) support research training for underrepresented groups from high school students to investigators.

Diversity supplements provide your trainees with:

- Funding for salary, fringe benefits, and tuition for eligible students
- A pathway to further NCI and NIH funding opportunities
- Academic and professional support and opportunities to network with mentors, peers, and NCI Program Officers.

The NCI Center to Reduce Cancer Health Disparities (CRCHD) sponsors the Diversity Supplements as part of the [Continuing Umbrella of Research Experiences](#) (CURE) program.

Before submitting an application, you're encouraged to read the [Diversity Supplement guidelines](#) and contact the Program Director, [Dr. Alison Lin](#). CRCHD's Training Navigator, [Dr. Hana M. Odeh](#), is also available to assist you in learning more about other funding mechanisms offered by CRCHD.

Research Experiences (iCURE)

Have you heard..... about new Intramural Continuing Umbrella of Research Experiences (iCURE) program supports mentored research experiences for qualified students and scientists in the multidisciplinary research environment of the NCI campuses in Bethesda, Rockville, and Frederick, Maryland?

Click [here](#) to learn more about iCURE.

NEWS

NIH launches HEAL (Helping to End Addiction Long-term) Initiative, doubles funding to accelerate scientific solutions to stem national opioid epidemic
National Institutes of Health Director Francis S. Collins, M.D., Ph.D., announced the launch of the HEAL (Helping to End Addiction Long-term) Initiative, an aggressive, trans-agency effort to speed scientific solutions to stem the national opioid public health crisis.

Toward this effort, NIH is nearly doubling funding for research on opioid misuse/addiction and pain from approximately \$600 million in fiscal year 2016 to \$1.1 billion in fiscal year 2018, made possible from a funding boost by Congress. NIH's efforts contribute to a government-wide push to meet the President's goal of ending the opioid crisis.

[Please learn more about HEAL initiative here](#)

NIMHD Introduces *HD Pulse* - An Online Health Disparities Resource!

RESOURCES & TOOLS

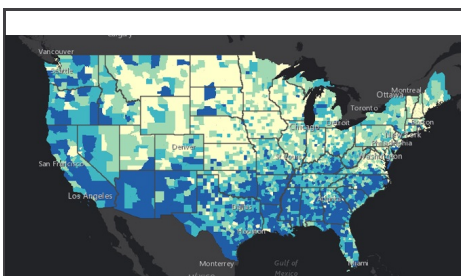

Are you interested in a Diversity and Re-entry Supplement?

NCI Diversity supplements support the research training of students, post-baccalaureate and post-masters individuals, postdoctoral fellows, and faculty investigators who are members of an underrepresented group.

Watch Webinar!

Learn more about how you can become part of the next generation of competitive investigators in cancer health disparities research by participating in the diversity and re-entry supplements!

Centers for Disease Control and Prevention Social Vulnerability Index

Social vulnerability refers to the resilience of communities when confronted by external stresses on human health, stresses such as natural or human-caused disasters, or disease outbreaks. Reducing social vulnerability can decrease both human suffering and economic loss. CDC's Social Vulnerability Index uses 15 U.S. census variables at tract level to help local officials identify communities that may need support in preparing for hazards; or recovering from disaster.

The Geospatial Research, Analysis, and Services Program (GRASP) created and maintains CDC's Social Vulnerability Index. For more information visit [here](#).

NCTN NAVIGATOR

NCI Launches a new research resource called NCTN Navigator now available to the scientific community. Navigator is a publicly searchable database of specimens from

completed National Clinical Trials Network (NCTN) phase 3 adult cancer trials. Investigators can search Navigator's inventory of high-quality specimens that are linked to clinical trials outcomes data, which is a unique aspect of this NCI-supported resource. The NCTN Navigator inventory currently has more than 600,000 specimens from 80 Clinical Trials encompassing 50,000 enrolled patients.

[Please visit NCTN Navigator website here](#)

The National Library of Medicine (NLM) recently developed a series of learning tools to help consumers navigate NLM resources to become better advocates for themselves and their loved ones. The consumer health section of the program provides easy-to-use tutorials on some of our most coveted online websites. Discover the features of websites like MedlinePlus, Genetics Home Reference, Household Products Database, and [ClinicalTrials.gov](#). With the knowledge you gain, you will be able to research diseases and other health concerns that will allow you to have more informed discussions with your physicians and other health professionals. Please [click here to visit our Public Health Resources training tools](#).

Health Reach: Multilingual Health Information

Please visit Health Reach website that offers easy access to FREE quality multilingual, multicultural public health information for those working with or providing care to individuals with limited English proficiency (LEP). Within the site you will find culturally relevant information in several languages and formats about health conditions and wellness topics. In addition, you will discover professional resources, cultural backgrounders, clinical tools, and guidance about specific LEP populations. [Please click here to visit these resources](#).
